Area of expertise:

VAT Investigations

Outsourced Finance Teams

In today's competitive marketplace pharmacists need instant access to accurate financial information without the unwanted, time constraining burden of bookkeeping, payroll and Revenue returns.

We offer pharmacists outsourced finance teams. These teams manage bookkeeping, payroll and Revenue requirements and deliver timely management information. Our solutions are cloud based which means our clients have instant access to up to date financial information anytime anywhere.

Fitzgerald Power presently provides outsourced "back office" solutions to a large number of pharmacies throughout Ireland. If you want to reduce your administrative burden and improve the quality of your financial information call or email Catriona to arrange a consultation.

VAT Health Checks

Recent indications suggest large VAT overpayments in the retail pharmacy sector. Pharmacists face two potential problems; historical VAT issues and future overpayments.

Fitzgerald Power provides VAT health checks for Irish pharmacists and our initial consultation is free. If we identify overpayments we assist pharmacists in recouping the refund from Revenue. These historic refunds can be claimed for the preceding 4 year period.

We advise pharmacists across the country on VAT issues and are ideally positioned to identify overpayments and implement systems to prevent future issues. If you would like a free VAT health check call or email Noel to arrange a consultation.

Pharmacy Acquisitions & Disposals

Whether you are considering selling your pharmacy or looking for further expansion you should follow a logical and structured process. From pharmacy valuations to identifying suitable purchasers or vendors this process can be challenging.

Fitzgerald Power has the expertise to help you navigate these challenges. We have noticed a recent increase in pharmacy acquisition activity and have a profiled database of purchasers and vendors around the country.

In 2012 Fitzgerald Power undertook a significant number of pharmacy valuations and oversaw numerous ownership changes. If you would like to be added to our pharmacy acquisition database or if you are interested in an independent valuation by Ireland's leading retail pharmacy financial advisory firm please call or email Maurice to arrange a consultation.
